

III International Workshop on Electromagnetic Properties of Novel Materials

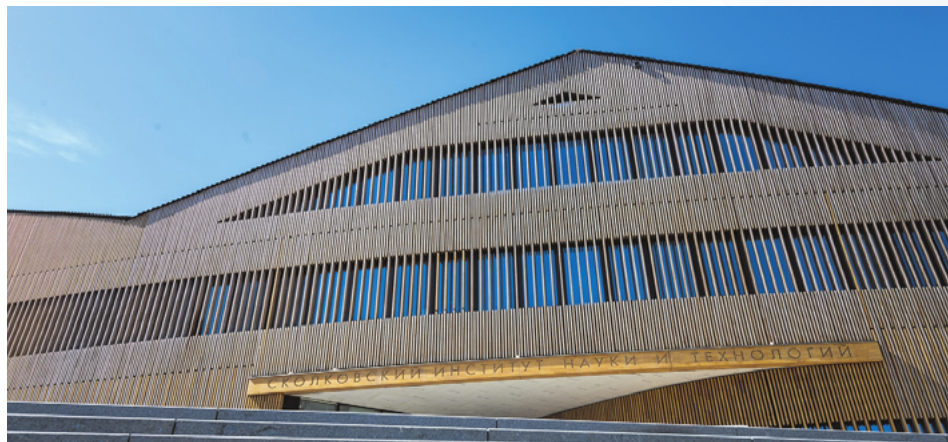

Scope

III International Workshop on Electromagnetic Properties of Novel Materials follows two Russian-Belorussian workshops (Minsk 2016, Novosibirsk 2017). The aim of the Workshop is to provide a floor for the recent advances in both fundamental and applied science of novel materials and their electromagnetic characteristics with special attention on nanocarbons.

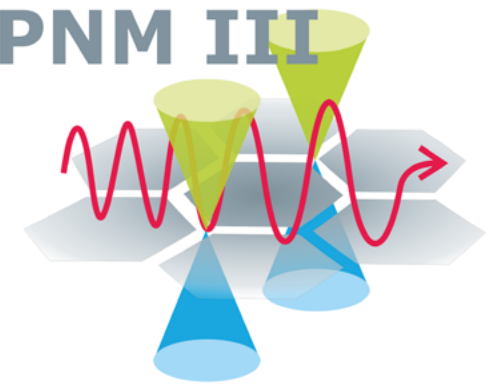

The workshop will be held at **Skolkovo Institute of Science and Technology** (Moscow, Russia) on **December, 18-20, 2018**. We are looking forward to your participation!

Scientific program

1. Synthesis and characterisation of carbon nanomaterials
2. Hybrid materials
3. Electronic properties of nanocarbons
4. Application of THz and GHz radiation for the characterization of nanomaterials
5. Graphene Electronics
6. Magnetic Nanomaterials
7. Theoretical methods and approaches in nanoelectromagnetism
8. Biomedical application of carbon nanomaterials

EMPNM III

Scientific committee

Prof. Vladimir Kuznetsov
Prof. Polina Kuzhir
Prof. Sergei Maksimenko
Prof. Albert Nasibulin
Prof. Alexander Okotrub
Prof. Valentin Suslyayev
Prof. Georgy Fedorov

Organizing committee

Chair

Prof. Albert Nasibulin

Co-secretary

Dr. Yuriy Gladush
Dr. Daria Kopylova
Dr. Dmitry Krasnikov

Local organizing committee

Prof. Timofei Zatsepin
Elena Padalitsa
Ksenia Rokhina
Natalia Kondrashova
Alena Alekseeva

Location

Skolkovo Institute of Science and Technology,

30c, Bolshoy blvd., Skolkovo Innovation center, Moscow, Russia

Registration fee - 0 RUB

Language

The official workshop language is English.

Abstract format

1/2 of A4 page, 12 pt, [Abstract template](#)
